

Microsoft OData Standards Support Open Specifications Documentation Readme

Microsoft Open Specifications Documentation

The Microsoft Open Specifications documentation contains OData (Open Data Protocol) Standards Support documentation that provides detailed technical documents for certain standards that are implemented in specific Microsoft implementations.

Forums that you may find helpful are available at the following locations:

- All Interoperability forums:
[openspecs-questions - Microsoft Q&A](https://learn.microsoft.com/en-us/answers/topics/openspecs-questions.html)
<https://learn.microsoft.com/en-us/answers/topics/openspecs-questions.html>
- SQL Server Protocols forum:
[openspecs-sqlserver - Microsoft Q&A](https://learn.microsoft.com/en-us/answers/topics/openspecs-sqlserver.html)
<https://learn.microsoft.com/en-us/answers/topics/openspecs-sqlserver.html>

Find more information about the Open Specifications program and the technical documentation at [Open Specifications Dev Center](#).
